

LAW FIRM UPDATE

GOLAN | CHRISTIE | TAGLIA

We are excited to announce that our firm recently partnered up with the law firm of Golan Christie Taglia, LLP (GCT) as part of a broader plan to offer additional legal services to our clients. For over 25 years, GCT has been dedicated to delivering successful results while providing clients with the highest levels of quality and personal service. Maritess Bott personally knows many of the attorneys at GCT, some since the early days of her legal practice. If you have a legal concern outside of our general practice areas, we believe that our partnership with GCT will provide you with top notch attorneys who will serve you in the same manner as we do. Some examples include:

1. Do you wish to file an appeal for your real estate taxes?
2. Is there a business you wish to buy or sell?
3. Do you or anyone you know need to file for bankruptcy?
4. Do you own a business that has been impacted by COVID-19?
5. Do you have issues you are concerned about for employees going back to work?
6. Are you and your family experiencing tension and disagreements as a result of a death of a loved one?
7. Are you being sued by a business partner?

These are just some of the areas of law that may trigger you to think - "I need a lawyer!", and hopefully you remember, you can call on us. We will discuss your situation and introduce you to the right attorney at GCT who will understand your needs. We are always here for you. That is why we are so excited that this partnership with GCT will help us be the best resource for you and your family.

Does your family have a plan in place to protect your adult children in the event they get sick?

If not, perhaps now is the time to take care of it.

The phone rings . . . your 18-year-old son is crying on the phone. He is 700 miles away. He is in terrible pain. He is alone, scared, and his 19-year-old RA is taking him to the hospital. You stay on the phone with him the entire way to the hospital, asking questions and telling him you love him and that you are sorry he is hurting so badly. He hangs up when they arrive at the Emergency Room.

That is it . . . That is all you know . . . The RA is your only source of information. Your child is not answering his cell anymore and every time you call the hospital, they tell you – your ‘child’ is an adult and they don’t have permission to share anything with you because it is a HIPAA violation. Unless you

can prove otherwise, the hospital is not going to tell you anything about your son.

What do you do? What should you have done before this happened?

YOUNG ADULT DOCUMENTS

For our families with children over the age of 18, it is important to remember that *they are legal adults*. This translates to parents not being able to make financial or medical decisions without a:

- ✓ Medical Power of Attorney
- ✓ Financial Power of Attorney
- ✓ HIPAA release
- ✓ Docubank Card

Call us today to discuss documents for your adult children at (847) 818-9084 or email to info@bottestateplanning.com.

If you are concerned about sending your child back to work or school during the pandemic, use this time to put a plan in place.
